

## Chairman's file

Mr. Julio Calleja y González-Camino

### Name

Mr. Julio Calleja y González-Camino

### Bibliographical notes

[1963 Manager in charge of the INI's Electricity Department]

[1967-1969 INI's Managing Director]

[25-04-1969/24-4-1970 INI's Chairman]

A degree in Industrial Engineering

During his tenure he proposed changes for reorganizing the investment portfolio and rationalize the activities, giving priority to the energy and iron and steel sectors, as well as to the amalgamation of companies; ARTESPAÑA was incorporated at this time. As for the internal organization, he proposed the modification of the Instituto's organizational chart with the aim of increasing the management's efficiency and the control on the companies. These changes were

implemented by his successors since, as a result of the change of the minister of Industry, his chairmanship lasted just one year.
